FUNCTIONS

CALL TENANT

Visitors are able to call the desired tenant from the General Entry or the Block Entry.

General Entry: Visitors need to enter from 1 to 3 digits block number followed by a 4 digits apartment number. For example, if the addressee lives in block 2 apartment 101, the visitor shall enter: 20101.

Block Entry: Visitors need to enter from 1 to 4 digits apartment number. For example, if the addressee lives in apartment 21, the visitor shall enter: 21.

CALL TO GUARD UNIT

If the visitor or tenant needs to be assisted, they are able to call the main Guard Unit by entering the number 9901. This call can be made from both General Entry and Block Entry.

Up to 98 different guard units can be called (9901...9998).

ACCESS PIN CODE

It is possible to define up to 8 access codes (pin) to open the door.

Codes can have 4 to 6 digits long.

FACE RECOGNITION

Tenants can be identified in the front of the panel, and then the door been opened by means of pressing A key.

This operation can automatically disable the alarm in their house.

ACCESS CONTROL

The panel includes a Mifare card reader that controls up to 100.000 cards.

It is possible to manage cards by means of the MEET Management Software. In addition, the panel can be connected, to third party access control units through Wiegand 26 protocol.

IP CAMERAS

It is possible to configure up to 4 IP cameras that can be used as an auxiliary camera from all the monitors installed in the same block. These cameras can be used for tracking visitors through the corridors or common areas in the condominium.

ADDITIONAL RELAYS

It is possible to add up to 4 additional relays. (One Module Ref.1491 is required).

Tenants can then open additional doors (garage, corridors, etc.), when called from any panel in their block or main entrance.

VIDEO STREAMING

RTSP video stream can be constantly sent to NVR or third-party system so that the panel camera can be used as a regular CCTV camera for surveillance purposes.

RTSP video stream and face recognition can not work simultaneously.

TAMPER

The panel is protected against vandalism thanks to the tamper alarm switch, so in case the panel is removed from its flush box a warning message will be sent to concierge and/or MEET Management Software.

TECHNICAL SPECIFICATIONS

System:

- CPU: Quad-core Cortex™-A7 1.5GHz
- GPU: Mali400MP2
- FLASH: 4GB
- SDRAM: 1GB DDR3L

Screen:

- 4.3" Color TFT
- Resolution 480*272 pixel
- View angle: 110° H, 90° V
- Contrast: 400/1
- Brightness: 200cd/m²

Audio Features:

- G.711 codec
- Audio OLR> 15dB

Camera:

- 1/3" CMOS Color
- Horizontal 72°, Vertical 54°
- 1.2 Mega Pixels
- Minimum Illumination 0.5 LUX. Automatic white led activation
- AWB

Power Consumption:

- On standby: 250 mA
- Working: 500 mA

Working voltage:

- 12 VDC

Connectivity:

- Ethernet RJ-45 Connector
- RS485 connection port for lift control
- Secondary access control reader connection (Wiegand 26)
- Built in web server for configuration and remote management

Working Environment:

- Temperature: -40 °C. + 70 °C
- Humidity: 20 – 80% (Non-condensing)
- IP 54
